

A full-page background image of a wedding couple. The bride is wearing a white, off-the-shoulder lace gown and holding a bouquet of flowers. The groom is wearing a dark suit and has his arm around her. They are standing on a paved path in front of a red brick house with white window frames and a black metal railing. The scene is captured in a warm, golden-hour light.

2024/25 Brochure

“

Jonathan is a really lovely person: calm, helpful and always goes above and beyond even down to knotting ties correctly!

When we first met at the wedding fayre I read a review from another couple who had said he'd been more than a photographer and in fact became more like a guest. We echo this!

Jonathan's approach makes you feel comfortable, relaxed and despite us both not feeling confident about having our photo taken his personable approach means that any inhibitions are gone.

Our guests loved him too as he made the photo taking so enjoyable and ensured he captured lots of them too.

PROVIDING THE BEST PHOTOGRAPHY

I personally want you to look back on your day having thoroughly enjoyed every moment of it and to have the joy of looking through your wedding photos with excitement and feeling confident to share them with guests and family.

Photos that are so magical and fantastic that they make people gasp **"Wow! That looks gorgeous"**

I'm Jonathan, a wedding photographer of over 12 years. I specialise in blending into the background to capture your key wedding moments from start to finish - even if that means staying late into the night to photograph you dancing your socks off. My aim is to put everyone at ease whilst being friendly and engaging. I've even had guests ask me what side of the family I'm from! Because when you're relaxed, the real magic of your wedding can be captured. From the look on your partner's face when you say 'I do', to the moment of the first dance when you're surrounded by those you love most. Nothing gives me more of a thrill than seeing people enjoy their big day and then reliving those magic moments when they get their postcard-perfect photos afterwards.

My goal is to give you exactly what you want... Not the standard shots any old photographer can produce. That's why we'll discuss exactly what shots you want beforehand, and I'll help you organise any timings to ensure these shots are taken with minimal fuss. When I'm not capturing your 'wishlist' shots, I'll be blending in with the guests. Capturing natural, relaxed photos of people enjoying themselves and explaining that I'm really not on the guest list.

From the very beginning, I strive to build a relationship with each couple by getting to know their unique personalities, preferences, and vision for their special day. I offer personalised consultations and work closely with you to understand your expectations and ensure that your wedding photography reflects your individual style and flair.

My aim is to make sure your day runs smoothly and that you are able to enjoy it to the full without worrying about all the details. I will be here to help guide you. I'll be out of the way for the important parts, but I'll be by your side for the rest of the time making sure you get the best wedding day possible.

WHAT ARE THE BENEFITS

When I photograph a wedding I'm there to capture as much of it as possible. So with every package I give you:

- **ME** for your **entire day** (no limit on hours, I'm there for the whole thing not a set amount of time)
- A Photographer who knows how to make the day fun, run smoothly and be out of the way when needed.
- **All the photos** (not a limited amount, you get everything - except blurry ones of course)
- Personalised USB box with all images in high resolution ready for you to share, print and show off
 - Password protected Online Gallery to share with friends and family for FREE downloads
 - Choose between bright colourful or rustic styles of editing
- Option to create a fun and unique **'Movie Poster'** picture
- Option to purchase albums and folio box with mounted prints
- Option to book an engagement/couples shoot before your wedding.

ENGAGEMENT SHOOT

Doing an engagement shoot can not only give you fantastic images to keep and use, but it'll help you build confidence and know what to expect so that on your wedding day you can breeze through without a concern.

Shoots last for just over one hour at a location of your choice, and can be a fun and valuable way of getting to know me as your photographer, how I work and how natural I make everything feel.

All your images are then professionally edited by me and supplied via a digital download link. They are yours to use as you wish.

DOING SOMETHING DIFFERENT

I love being creative! and every wedding I photograph I always offer the opportunity to do something completely fun and unique to you! If you're a fan of a specific movie such as Star Wars or the Avengers, I can create a photo with elements of that movie for a dramatic image. I call it the 'Movie Poster Image'.
